Subject: RE: Melanie Calling In: Polymet/Northmet: Monitoring Plan for Potential Indirect Wetland Impacts

Thank you Kenton,
 What is the most current document to review for the adaptive management plan for secondary wetland impacts?

-Melanie

 Subject: Melanie Calling In: Polymet/Northmet: Monitoring Plan for Potential Indirect Wetland Impacts

Melanie,
 The meeting was requested by the stakeholders. The purpose isto discuss the monitoring plans, the locations of the 61 monitoring wells, the adaptive management plan and related topics in advance of the summer monitoring season. If adjustments are needed now is the time to review that.

Please plan to call in unless you hear differently.

Thank you for your interest,

 Subject: [EXTERNAL] FW: Monitoring Plan for Potential Indirect Wetland Impacts

Ralph and Kenton,

This is the first I have heard about this meeting/call, but the agenda outlines issues that I would be interested in discussing and or listening to any discussion.

I am planning to call in, but let me know if you don't think it appropriate for EPA to be on this call since I don't have any background on what prompted the meeting, etc.

Thanks,

Melanie Burdick

Subject: RE: Monitoring Plan for Potential Indirect Wetland Impacts

Ralph - sorry to have missed communications with you this last week; I was traveling for work, and Monday (yesterday) was a Fond du Lac holiday. We are looking forward to meeting with you and Kenton tomorrow to discuss the proposed monitoring plan for Potential Indirect Wetland Impacts from the PolyMet project. Attached is a brief agenda, with conference call information for anyone unable to attend in person. We will plan on having lunch available so that no one needs to head out on an empty stomach.
